Another day another scheme like they say a boy has to be bad so lets do a prank on a teacher this going to be great but we have to get disguised in a costume oh no hopefully no one recognise us or we will be in big trouble.

He's not now stop acting like a baby and hurry up we have to do this now when he done this the trick he done to the teacher was hand shaking him with a electric shot. "Ow what was that" he screamed. "uh nothing Ms Tigh.

"I felt it principals office at 3:00" she madly said. But I'm not from this school.

As I walked in sipping my juice box I realised I have to go to the principle

office. His mum just took away his ps5 and his tablet he has to do something to make sure his mum doesn't visit the principle or his mom dosen't know what he did "so what am I going to do If my mum finds out She's gonna kill me" he said nervously.

He knew if his mum found out he would be grounded. This would continue for ever. The next day he would be grounded again. He knew he could not become a game developer. His mother would never let him. He tried everything he could do, (every person in the world has tried it) but it's still hard. It's still hard and he's never going to do this. He will never be able to do this.

He knew if his mum found out he would be grounded for a decade he didn't want this to be so he decided to tell the principal it him but he didn't believe This would continue for ever. The next day he woke up his mum told him what he did yesterday and she took away his ps5 and his tablet and this other devices so he could not become a game developer. His dream was to be a pro at games to he went to school early and proved the principal wrong but it did not work he did everything he could do, (every person in the world did this and did not work) he got madder and madder and did not work he was crying for his life saying how hard it is and he's never going to do this. He believed in his self hiding and trying to be naughty and destroy the school.
